

Materials Science & Engineering (2010-11)

Below is the *advised sequencing* of courses for this degree,
the official degree requirements are found in the University General Catalog.

TOTAL UNITS = 122 / 124

MATH 124 is a 5 unit version of MATH 125. Students taking MATH 124 should consider delaying the Tier 1 INDV course to maintain a reasonable academic load.

* INDV/TRAD/Art/Hum courses must meet University general education requirements. One course must be recognized by the University as focusing on non-western culture, race, gender or ethnicity. TRAD 101 satisfies this requirement.

**Students are required to take a course such as statistics, linear algebra, or advanced calculus. A statistics course, such as SIE 305, is highly recommended.

Technical electives should be chosen with the 42 upper division unit requirement in mind (300 & 400 level courses).

***MSE technical electives: Students are required to take 12 units of MSE Tech. Elect. See department advisor for list of approved courses.
